Dear Sir:-

In the Numismatist for February 1915, on pge 53,
I find a cut of the private bank note issued by William
A. Graham of Brackettown, ^{N.C.} Tenn., which interested me
greatly.

At first I thought it was the business of a kinsman
of mine, but upon speaking yesterday to Hon. William A. Graham,
Commissioner of Agriculture, of this state, whose office is
here, he stated to me that the William A. Graham in question
was not the William A. Graham I had thought, but that he lived
in Burke County, near Spruce Pine, and was a merchant and a
miner, and I think a doctor.

He further stated that several instances happened which
lead people to get him mixed with the Major's father, who was
a man of prominence, and at various times was Governor, United
States Senator, and Secretary of the Navy.

If you are interested in tracing out this matter I
would suggest Major Graham as a party who could probably give
you some information.

Very truly yours,

A.B. Andrews Jr.
